The *identifies that 84% of anti-Asian racist attacks were victims of East Asian descent. As well, 42% were reported by youth under 18 years of age. This presentation honors the voices of East Asian youth, to allow a platform for them share their concerns and experiences, and culminates into Calls to Action.*

Join the Inaugural Youth Summit which includes a panel discussion with youth ambassadors across Canada as they share their personal experiences of anti-Asian racism and the impact on their lives. Moderated by Dr. Gina Wong, the Founder and Ambassador of the Asian Gold Ribbon and Liam Olsen, an Asian Gold Ribbon Youth Ambassador, we welcome an open discussion on the effects of racism and ideas for healing and the changes they wish to see which can guide government decision-making that will impact this next generation of East Asians.
